## AGENDA

### Micro Leadership

Our schools are in desperate need of micro leadership – establishing minimums. With a dropout rate sometimes exceeding 70%, we are failing our students. Attend this training with School Board and education involved Tribal Council members. You will return with dozens of low or no-cost ways to ensure your school becomes focused on educational excellence.

- Setting minimums – it's your right, it's your responsibility
- Retention of staff – teacher turnover hurts children
- Keeping your board on track and in front of problems
- Low or no-cost ways to **engender** student/parent/community respect
- Equipping your staff with safety skills – fights, weapons, self-defense
- Stopping, then preventing student drug use, i.e., inhalants, alcohol, drugs
- **Never Used, Drug-Free Student Teams** teaching their peers the good life of the drug-free
